4:30									
5:00	Relapse Prevention (Matt C.) 5:00 – 6:30PM•380			Anger Management (Francisco) 4:30 – 5:30PM Cobblestone					

ANGER MANAGEMENT (Cobblestone): Learn what makes you angry and how to deal with frustration, irritation and anger before it builds up.

BEYOND ANGER MANAGEMENT (380): Beyond Anger Management provides insights, strategies, and techniques that help transform the all too often destructive anger we all experience into a positive source of energy that can enhance lives.

CREATIVE JOURNALING & WRITING IN RECOVERY (Alvernon): Love to write? Looking for ways to express yourself in writing and a place to share it that supports recovery? Join now!

DIABETES SELF-MANAGEMENT SUPPORT (Cobblestone): Empowers members to work together to learn how to manage diabetes. Learn techniques to deal with symptoms of diabetes, exercises, healthy eating, appropriate use of diabetes medication, how and when to monitor glucose and problem solving when you're not feeling well.

DOMESTIC VIOLENCE – Male Gender Specific (380): Addresses taking the blame off the victim and places the accountability for abuse on the offender. Topics break down environmental factors of power and control and actively work to change societal conditions that support tactics of power and control. This group is for individuals identifying as male.

GRIEF AND LOSS (380): Feelings of grief and loss can come about in many different scenarios, whether that is from quitting substances, losing a loved one, losing a job, or ending a relationship. This group focuses on ways to overcome those hard times life gives us.

HEALTHY RELATIONSHIPS (Cobblestone): In this group, members explore the relationships in their life, including the relationships they have with themselves. We discuss the impact that our families of origin have had on our lives and on our current relationships. We also discuss codependency, sex and love addictions, and how to set healthy boundaries. ***This group does not meet requirements for DCS case plans.**

MORAL RECONATION THERAPY (380): MRT increases moral reasoning in individuals with issues of substance use, anger management, and domestic violence. Participants complete homework before each session and then present the homework and are passed through each of 16 steps when they meet objective criteria. Groups are open-ended; enter any time.

NEW MEMBER ORIENTATION (MAT/380): New members at CODAC's Medication Assisted Treatment program must attend this group to learn about the benefits and expectations of this program.

PARENTING & PATHWAYS (Cobblestone): This group utilizes the evidenced based model, STEP (Systematic Training for Effective Parenting), providing valuable tools to improve communication among family members and lessens conflict. For DCS involved women, this group also teaches about effective communication, dependency rights & expectations for going through the system.

PARENTING (380): STEP (Systematic Training for Effective Parenting) is a multicomponent parenting education curriculum. The three **STEP** programs help parents learn effective ways to relate to their children from birth through adolescence and helps parents change dysfunctional and destructive relationships with their children by offering concrete alternatives to abusive and ineffective methods of discipline and control.

RECOVERY MAINTENANCE (380): Recovery is HARD work! Attend this group to talk about the daily struggles of recovery, like temptations and influences in society; encourage each other to stay strong against temptations; share coping strategies; life each other up when we fall down; and celebrate our successes.

RELAPSE PREVENTION (Alvernon, 380): Teaches skills that are vital to staying in recovery from addictions; explore new ways of handling challenges involved with long-term sobriety and alternative behaviors to prevent drug and alcohol relapse.

ROAD TO RECOVERY (Alvernon): Learn to handle challenges involved with long-term sobriety and healthy alternatives to drugs and alcohol.

S.M.A.R.T. RECOVERY (380): Learn to live independent of addictive behaviors, coping with urges, managing thoughts, and to have a balanced recovery.

SEEKING SAFETY (380, SACASA): Seeking Safety is an evidence-based, present-focused counseling model to help people attain safety from trauma and/or substance abuse. It can be conducted in group and/or individual modality. It is an extremely safe model as it directly addresses both trauma and addiction, but without requiring clients to delve into the trauma narrative. *Buscando seguridad (TEPT / Trauma): diseñado para aquellos que recién comienzan a trabajar en su trauma. Aprenda a comprender mayor síntomas relacionados con el trastorno de estrés postraumático (TEPT). Libérate de patrones nocivos al aprender habilidades de afrontamiento seguras. Nota: este no es un grupo de procesamiento; los miembros no comparten sus historias personales de trauma hasta más tarde en el tratamiento.*

SELF-ESTEEM (Cobblestone): Change self-defeating thoughts and overcome self-doubt. Use affirming thoughts, enlarge possibilities, & have a positive self-image.

SUBSTANCE (AB)USE EDUCATION (Cobblestone, 380): This educational group teaches how drugs and other substances impact the brain and body. Topics include the history of drugs, social and legal influences, short and long term effects of use on the body and brain, withdrawal, drug interactions, etc.

WELLNESS RECOVERY ACTION PLAN (WRAP) (380): WRAP is a self-designed prevention & wellness process that anyone can use to get well, stay well and make your life the way you want it to be. Wrap can help you discover your own simple & safe wellness tools, make a list of things to do every day to stay well, identify, triggering events & early warning signs that things are getting worse, make an action plan to respond when things aren't going well, and create a crisis plan & a post-crisis plan.
